Insurance Assessment

Mac Ops Assessment: 5287

Thursday 12th February 2026

Customer details:

Name: Meaz Nathan

Phone: 021 860 393

E-mail: haymeaz@yahoo.com

Insurance Claim Number: C5373809 AMI Claims

Device Specifications:

Device: Apple iPhone 13 mobile phone

Replacement Value: 1699.00

https://www.apple.com/nz/iphone-17/

Storage: 128GB

IMEI Number: 356825825434582

Device Issue / Damage Report:

The Apple Iphone 13 mobile was presented to us after an impact and liquid incursion incident.

The phone is not staying on and reboots for the customer then shuts down.

The device is unusable for the user in its current condition.

Further inspection needed.

Diagnosis of Issues / Damage :

We completed a damage inspection to the device.

Power meter readings show irregular values and random restarts, indicating that the mainboard power management controller (SMC) is faulty, leading to power failures caused by liquid damage impact. Critical mainboard fault on phone.

Repair and or Replacement recommendations:

REPLACEMENT RECOMMENDED:

Based on the extensive damage from the liquid damage to the device including the primary mainboard, this iPhone 13 is considered **Beyond Economical Repair**.
