Insurance Assessment

Mac Ops Assessment: 5464

Monday, 9th March 2026

Customer details:

Name: Joseph Lupi

Phone: 0274 169 725

E-mail: lupi.jospeh@gmail.com

Insurance Claim Number: TBA

Device Specifications:

Device: Apple Macbook Air M4 (2025)

Replacement Value: $1,999.00 incl GST

Storage: 256 GB

Memory: 16GB

Serial Number: MQGH4W43LW

Device Issue / Damage Report:

The Apple Macbook Air was presented to us after an impact damage incident.

The front LCD is shattered and the computer is unusable to the customer.

Further inspection needed.

Mac Ops is a leading Sales, Service and Repair business for Apple, Windows, computers, phones, drones and electronic devices. With 2 locations across Queenstown and Wanaka we support the Southern Lakes region for smart device requirements.

E-mail: info@mac-ops.co.nz

Diagnosis of Issues / Damage:

After inspecting the MacBook, we determined that the mainboard has sustained damage due to impact. The mainboard overheats and the fan runs at maximum speed.

During our tests, the macbook showed unstable readings and restarted during tests due to overheating.

Repair and or Replacement recommendations:

REPLACEMENT RECOMMENDED:

Based on the damage to the LCD screen and the mainboard's failure preventing the computer from staying on, this MacBook is considered **Beyond Economical Repair**.

Any repair attempt would be unlikely to restore the device to the reliability or performance standards expected under manufacturer specifications.

Apple Macbook Air 13-inch Standard		$ 1,999.00
Insurance Assessment and Report:	(Paid)	$ 139.00
Total		**$ 2,138.00**

All Prices Include GST, parts, labour, freight, testing
